Solar Pool Heater Checklist

Revised September 2021

Plans and inspections are to be compliant with the current Florida Building, Fire, Plumbing and National Electric Codes. For questions, please email permit@auburndalefl.com

Plan Submittal

- Provide manufacturer installation instruction and specification sheets for all associated equipment. (Pump, panels, attachments)
- Provide signed and sealed structural drawings for solar panel attachment. Include mounting details, rail racking, penetrations, flashing, waterproofing, and fasteners. (cut sheet)
- Provide site plan locating all equipment, openings, venting and mechanical equipment.
- Provide plumbing riser diagram to include piping layout, type, and sizing.

Revisions

- Any revisions to the plans are to be clouded
- All responses are to include a narrative
- All revision drawings shall be named the same as the original drawing name.

Inspections

- Building Final
- Plumbing Final
