- ( ) Yes
- (•) No

Fire Wall

- ( ) Yes
- (•) No

CONTRACTOR INFORMATION

Who is the contractor?

- ( ) Property Owner
- (•) Contractor

109.3 Building permit valuations.

The applicant for a *permit* shall provide an estimated *permit* value at time of application. *Permit* valuations shall include total value of work, including materials and labor, for which the *permit* is being issued, such as electrical, gas, mechanical, plumbing equipment and permanent systems. If, in the opinion of the *building official*, the valuation is underestimated on the application, the *permit* shall be denied, unless the applicant can show detailed estimates to meet the approval of the *building official*. The city of Auburndale utilizes the current ICC valuation chart to determine the construction valuation. Final building *permit* valuation shall be set by the *building official*.

Are you using a private provider?

- ( ) Yes
- ( ) No

Select Your Contractor

GUIDELINES & CHECKLISTS

- [x] I acknowledge that I have opened and read the following Commercial Application Checklists
- [x] I acknowledge that I have opened and read the following Commercial Plan Review Checklist
- [x] I acknowledge that I have opened and read the following Site Plan Guidelines

UPLOAD FORMATING REQUIREMENTS

Please note the following requirements for the system:

- **Special Characters:** Make sure the filename of your documents do not contain any special characters such as: !, *, ', \, ;, :, @, &, =, +, $, , (comma), /, ?, %, #, [,], ", <, >, | characters.
  - If your document does contain any of these, please remove the special characters from the file name and re-upload the file.
- **PDF Format:** Documentation must be in PDF format.
- **File Accessibility:** Please verify the file is accessible (i.e. invalid file can be PDF Portfolios, Corrupt file, or Password Protected).
  - Please determine if the PDF can be opened by Adobe Reader and confirm it is not a PDF Portfolio. If the PDF cannot be opened, created a new PDF from the source program. Remove password protection, if applicable.
- **Size:** Document must not exceed 1GB.
  - Return to the source document and create PDF file that is below the file size limitation or optimizing the PDF can also help reduce file size.
- **Page Count:** The maximum page count for the document is set at 500 pages. Make sure your document is smaller.
- **Readability:** Readability can become an issue if the system inspection tool can't read each page in the document. If it's deemed not readable, it will be flagged.
  - If the pages aren't readable, recreate the PDF from the source document using Adobe Pro or Nitro Pro.
- **Annotations:** Remove any annotations from the PDF if possible. This can be done by reprinting the file to a new PDF using a PDF editor. Otherwise, return to the source program and generate a new PDF without annotations from the start.
- **Attachments:** Remove any attachments that exist in the PDF. If you find there are attachments, recreate the PDF without any attachments or reprint PDF as new to remove attachments.

ACKNOWLEDGMENT

- [x] **Application is hereby made for a commercial building permit to do the work as described above and in consideration of the issuance of such permit. I agree that this application is subject to being built as referenced to the approved plans and in accordance with all zoning ordinances, building codes, and other ordinances of the City of Auburndale and laws of the State of Florida applicable thereto. It is understood that any deviation from the information contained herein, unless approved by the Administrative Official, could change the overall cost or will render the permit null and void.**
- [x] **I hereby certify that the information set forth above is true and correct and that I am the property owner or lessee or acting as the agent of either and have been authorized by them to make this application.**

Required Inspections

IMPORTANT REMINDER:

After placing the case in *Issued* status, **be sure to schedule any inspections marked as "Not Required."** This step ensures the system can properly track inspection completion and notify the Permit Tech when all required inspections have been finalized. Skipping this may delay the case closure process.
